SENIORS 2020-21  
WEEK 2

Story  
TIME

# SCHEDULE

## Monday

### Flower Button Art

Take one big button and few small buttons of different colours. Take a sheet of paper and stick the big button in the centre and the small buttons around it like a flower. Cut and paste thin strips of green colour paper for the stem or draw the stem and colour it green. If you do not have buttons, use fingerprint to make the flower using paint.

## Tuesday

### The Veggie Mystery Bag

Place few different vegetables in a cloth bag. Ask your child to put their hand inside the bag (peeping not allowed). Now, feel all the vegetables inside the bag and guess one by one, which vegetables are in the bag. Make it more fun by giving interesting hints to the child.

## Wednesday

### Shadow Drawing

Place a sheet of paper where there is sunlight or use light from a table lamp. Now place any object on the paper. Trace the shadow cast by the object onto the paper. Try with a coin now, cover it with another paper and trace over the paper. See the magic!

## Thursday

### One and Many

Make two name slips with headings 'ONE' and 'MANY'. Now bring small objects like spoons, beads, crayons, erasers, pencils or hairclips. Now place one under the heading 'ONE' and other similar objects under the 'MANY'. See how many different objects you can find under 'ONE' and 'MANY'.

## Friday

### Odd one out

Parents please say aloud few words belonging to one category and add one word which does not belong to it. For example, "Cat, dog, tomato, and hen". Ask the child to identify the odd one and ask why the odd word does not belong with the rest of the group. This fun game can go on and on and is great at analytical reasoning.

Please click on the links to be taken to the activity page.
